

ARE YOU THE NEXT VISUAL CONTENT CREATOR AT PHONEBLOKS?

At Phonebloks, we love images. We use them for almost everything. We post them on our social media channels, use them in press releases and add them to our partner presentations, among other things. We feel that a coherent visual profile is key for getting our message across, simple and clear.

Visual Content Creator

To take our visual profile to the next level we are now looking for a Visual Content Creator (VCC). As the VCC of Phonebloks you will create and deliver specific imagery on a daily basis. And as news move fast, you sometimes have to be quick on your feet, delivering on the hour. You will work closely together with the whole Phonebloks team on developing the visual style of Phonebloks with the ambition of producing and presenting some of the best visual content out there.

Prior experience is a plus but not a necessity. We are just looking for the right girl or guy. Someone who's as passionate about this as we are. We'd like for you to know your way around Photoshop, Google Docs and Slack. But other than that, you can create your images anyway you like.

The core team at Phonebloks is a group of deeply committed volunteers. As such this is an unpaid voluntary position, as nearly all Phonebloks positions are. However, your efforts will not go unnoticed. With a documented social reach of 380 million people and a social following of over 600k Phonebloks can be the shop window you've been looking for. We are continuously recruiting. As soon as we find our person the job starts!

About Phonebloks

Phonebloks is an idea and an initiative with the sole purpose of aiding the existing consumer electronics industry in switching to producing modular products under a circular economy. Phonebloks started in September of 2013 and has then gathered 15 partners, 25 000 forum members and 600 000 social media followers to support their cause.
