

OPEN DESIGN FOR RAPID INNOVATION

MARCIN
JAKUBOWSKI
OPEN SOURCE ECOLOGY

TUESDAY | MARCH 4 | 6PM
RAPSON HALL | ROOM 100

Marcin Jakubowski is founder of Open Source Ecology and developing the Global Village Construction Set, an open source do-it-yourself (DIY) tool set of 50 different industrial machines necessary to create a small civilization with modern comforts.

His work has recently been recognized in his acceptance as a 2012 TED Senior Fellow, a 2012 Shuttleworth Foundation Fellow, and his TED Talk was named the top 6th in the Huffington Post Best of TED 2011. His goal is to create the open source economy - an economy that optimizes both production and distribution - while providing environmental regeneration and social justice.
